

## **INFORMATION SHEET 19: SERVICES TO HEALTH & FITNESS PROFESSIONALS**

### **Easy-to-print leaflets on our major products**

We provide easily printed product leaflets in Word format on many items in our product range. The information is the same as on the website, but the format is especially designed for printing as required and giving out to patients. Available from [http://www.pelvicfloorexercise.com.au/shop\\_productleaflets.htm](http://www.pelvicfloorexercise.com.au/shop_productleaflets.htm) or call us and we'll post them to you.

### **Printable order forms**

Easy-to-print order forms covering our product range for printing as required and giving out to patients. Available from our website in **Word format** (<http://www.pelvicfloorexercise.com.au/forms/orders.doc>) or **PDF format** (<http://www.pelvicfloorexercise.com.au/forms/orders.pdf>) or call us and we'll post them.

### **Attractive product brochures for waiting room display or distribution to patients**

We regularly update our product range and print new full colour glossy product brochures approximately every 6 months. These brochures are ideal for waiting room display or direct distribution to your patients. We encourage you to keep your display stock up-to-date as prices can vary in new editions of our brochure.

**Contact us to ask for the number of brochures you require.**

### **A complete set of product samples for you to borrow**

Practitioners frequently ask us how they can familiarise themselves with current products. We will lend you a sample set of our products for a week, no matter where you are in Australia. There is no obligation to buy or recommend our products (although of course, we hope you will), but we do especially value your feedback.

**Contact us to arrange for this service.**

### **Arranging a professional development event where it would be useful for participants to handle pelvic floor products for themselves?**

We'll provide a complete set of product samples for any relevant professional development event. We regularly provide this service for physiotherapy pelvic floor training events, and receive very positive feedback on the value of this service:

- Organisers report that it saves them the effort of gathering together products from a range of different sources
- Participants report that it is great to be able to actually handle products and understand the differences between them.

Again, there is no obligation to buy or recommend our products (although of course, we hope you will), but we do especially value your feedback. **Contact us to arrange for this service.**

### **Arranging a professional development event and looking for trade displays and sponsorship?**

We are happy to consider sponsoring and providing a full product display for relevant professional development events. Recent events we've attended include training workshops and professional development programs for continence advisers and physiotherapists in NSW and Queensland. **Contact us to discuss your forthcoming event.**
